

## '05 & Up V-8 Mustang Intake Cover Part #'s 1025-10250

### INSTALLATION INSTRUCTIONS

#### !CAUTION!

#### ALWAYS USE PROTECTIVE EYEWEAR

Included in this kit: Intake cover, and mounting bolts.

Tools required: 1/4" ratchet, 8mm socket, and 5mm Allen wrench.

- Step 1** Pull the wiring harness locating tabs off of the 4 fuel rail mounting bolts.
- Step 2** Remove the 4 fuel rail mounting bolts.
- Step 3** Place the BBK intake cover over the intake manifold by tipping the front up slightly to allow the rear to clear the firewall while guiding the cover into position.
- Step 4** Tuck the wiring harness locating tabs between the intake cover and fuel rails and tighten the supplied bolts in place of the original hardware.
